

CURRICULUM VITAE

Personal information

Full name	Alexandridis Manolis	Nationality	Hellenic
Email	student.0b4dc0d3@gmail.com	Year of birth	1970

Professional experience

- 1996 - 2008 Employment at “ΤΑΣΕΙΣ ΣΥΜΒΟΥΛΕΥΤΙΚΗ Α.Ε.” with responsibilities in design and development of specialized software for large scale retail chains. Examples include: Point of Sales applications, Customer Loyalty systems, Invoicing, Warehousing and Product Distribution, etc...
- 1991 - 1993 Freelancing with custom-made software, examples include
- | | |
|---|------------------|
| Cash Register simulation application for PC | Pascal – DBase |
| Working shift controller application | Basic |
| Product sales, invoicing & distribution app | Clipper – Pascal |
- 1989 - 1990 Employment at “Χουρμουζιάδης & ΣΙΑ Ε.Π.Ε.” with responsibilities in creating specialized software for private medical centers (Microbiological, Radiological)

Professional skills

Professional experience of more than 15 years in the field of commercial software design, implementation and deployment

Proficient in various programming languages including: Delphi, Pascal, Basic, Cobol, Clipper, as well as some C and Assembly.

Trained in Full Stack Web Development with HTML, CSS, Javascript, Node.js & React

Adept with handling extremely large and sensitive / confidential in nature datasets

Experienced with commercially widespread Relational Database Management Systems, such as Oracle, Sybase and Microsoft SQL Server

Very good command of English and German language, with ease in communication

Education

Full Stack Web Development Training at Social Hackers Academy (2019 – 2020)
(<https://socialhackersacademy.org/>)

Technical Lyceum 1989 degree in IT - Computer Software Design & Development from
Aigaleo Technical Lyceum College (<http://1epal-aigal.att.sch.gr/>)

Special 330-hour seminar titled “Informatics and Computer Programming” with thematic in
Software Design and Development and Structured Object Oriented Programming

330-hour seminar titled "Information in 3D" with training in AutoCAD

Special 350-hour seminar entitled "Geographic Information Systems"

Military obligations completion certificate with adeptness training in Telecommunications
Technician, trained at ΣΕΤΤΗΑ Πύργου

ORACLE HELLAS specialized seminar on designing and deploying Integrated RDBMS
solutions for extremely large Datasets (millions of Records - multiple GB database Files)

Personal code examples on public domain

Background component using Pascal (for Delphi or FreePascal / Lazarus)
Code is not platform dependant (it can be compiled on Windows or Linux without changes)
<http://forum.lazarus.freepascal.org/index.php/topic>

Simple web page example using HTML & CSS (1st personal attempt creating a web page)
Code is not platform dependant (suitable for viewing on any contemporary web browser)
<http://codepen.io/tom-morrow/full/jOOWBpQ/>

Personal GitHUB of SHA's Full Stack Web Development course repository
Includes HTML + CSS – Javascript – Database manipulation – Node.js servers – REACT etc.
<https://github.com/student0b4dc0d3/>

Additional examples of personal involvement and contributions with on-going projects

Kickstarting the Database Schema design

<https://github.com/SocialHackersClass10/ChalleduApp/issues/10>

leading to decisions

[Technical architecture choices - backend](#)

Design & implementation of server database connectivity

<https://github.com/SocialHackersClass10/ChalleduApp/issues/16>

Collaboration on designing server File Upload strategy

<https://github.com/SocialHackersClass10/ChalleduApp/issues/14>

Providing technical documentation

<https://github.com/SocialHackersClass10/ChalleduApp/issues/28>

Requirement analysis and explanation for collaboration team members

<https://github.com/SocialHackersClass10/ChalleduApp/issues/26>

<https://github.com/SocialHackersClass10/ChalleduApp/issues/46>

Detection of potential design omission and solution proposal

<https://github.com/SocialHackersClass10/ChalleduApp/issues/29>

leading to rapid solution implementation

<https://github.com/SocialHackersClass10/ChalleduApp/issues/38>

Numerous comments, suggestions, technical clarifications regarding team member issues

<https://github.com/SocialHackersClass10/ChalleduApp/issues/44>

<https://github.com/SocialHackersClass10/ChalleduApp/issues/46>

<https://github.com/SocialHackersClass10/ChalleduApp/issues/30>

<https://github.com/SocialHackersClass10/ChalleduApp/issues/71>

Creation of additional / supplementary requirements

<https://github.com/SocialHackersClass10/ChalleduApp/issues/49>

<https://github.com/SocialHackersClass10/ChalleduApp/issues/52>

Compilation and Publishing of additional technical documentation

<https://github.com/SocialHackersClass10/ChalleduApp/projects/1#card-41576623>
